Cllr Reeves also previously submitted a report on behalf of himself and Cllr Nimney which was cascaded to councillors and is available on the website. A member of the public asked about the agenda item 10 with regards to the allotments and what role the Parish Council plays. Cllr Smart advised that it is for information purposes so that the Parish Council is aware with how things are going and so the Clerk can direct enquiries to the correct people. A member of the public wanted to point out that the cycle path at the top of Mill Close is being used for vehicles. This was due to be discussed in item 6. A member of the public gave a statement regarding planning application reference DC/23/1503/FUL. They explained that they would like the Parish Council support with the application and hoped that by addressing some of the concerns that the Parish Council may be able to support them. They	

started by explaining the reasoning behind the application – to provide a community café with crafts and a space for other people to display their handmade items. They explained that the drawing on the application is not particularly clear and that the shop/café area is 93 sqm.

They addressed the concerns regarding the look of the exterior of the planned building and that this was agreed after much research to have cladding, however if it was going to cause a problem, they could look at other options.

They addressed the concerns raised about parking, advising that staff could park on their private driveway that is in close proximity and therefore the spaces would be purely for customers. They also commented that when the school moves the road will completely change. Cllr Anderson asked whether they could align their opening hours so that it was not open during school drop off and pick up times, therefore not increasing traffic and also potentially allowing people to use their car park to alleviate some of the traffic issues. The applicant advised they have not yet finalised opening hours etc. Cllr Smart thanked them for the information and advised it will be discussed later during the meeting.

6. To receive an update on Transport and Highways Issues from Cllrs Anderson and D'arville. This is to include.

(i) Lilacs/Mill Close footpath link

Cllr Anderson advised she had been made aware this was being used for vehicles which is not what it is intended for. Cllr Anderson has raised this with Suffolk Highways/Suffolk County Council, and this is ongoing. The request is to have bollards installed to prevent cars/delivery vehicles from using it as a turning circle or parking there. Cllr Anderson will update as and when further information is available.

(ii) Footpath diversion email received from East Suffolk Council

This email had been previously cascaded to all members. All those present agreed there is no objection on the provision it remains solely a footpath. The Clerk will submit these comments.

Cllr Anderson also discussed the upcoming road closures to the A14 to install new Ipswich Park and Ride signs. Ipswich bound on the A14 between Levington and the Seven Hills Junction will be closed on the $6^{\rm th\ of}$ September between 8pm - 6am.
